# Introduction

In this release we resolved several bugs which have been reported to us.

Please check these release notes for more details.

# 1. K3|pebblestone

## 9956 Empty non decimal fields in the matrix

When you want to empty a value of a field in a matrix cell which is not a decimal (like Bin Code), you get an error, because it cannot be converted to a decimal (for example Bin Code = '01-01-001' in a matrix cell and this is changed to ''). This is corrected.

## 10519 Ratio Curve accept 0.5 as a qty

It fixed that is not possible to enter 0.5 qty in a ratio curve.

## 10529 Bin content in posted warehouse receipt

The bin content is now shown for all the variants and not only for first variant in posted warehouse receipt.

## 10655 All Item worksheet templates are being exported to excel

When you have multiple item worksheet templates, they are all being export to excel, this has been corrected, only the item worksheet templated you are working on is exported.

## 10690 Special Sales order creates lines on the purchase order instead of the matrix

When creating a special sales order and through the rece

## 10709 Ratio curve on Sale order is not working

When you add the ratio curve to the sales order sometimes it was opening the no. series instead of the ratio curve. This has been corrected.
