

Cargo Management

K3 Pebblestone's Cargo Management functionality enables businesses to easily and quickly oversee, manage and distribute their cargo to warehouses with simple to use tools. Companies can seamlessly access key information about vendors, transport routes, dates and other essential documentation to ensure they have everything needed to operate smoothly.

Cargo documents

Effortlessly group large volumes of products together into a cargo document ready for shipment either by vessel, plane, truck or rail.

Cargo statuses

Each cargo document contains status updates on all shipments – ensuring businesses have total visibility throughout the whole process.

Cargo routing lines

Utilise routing lines to quickly calculate how long each step in the delivery process will take, allowing businesses to plan accordingly.

Cargo package cards

Quickly package products into boxes, containers or pallets to save time. Single items can even be added to multiple packages for added flexibility.

Factbox

Purchase orders display essential information from cargo documents to provide businesses with added visibility.

Import packing information

Seamlessly receive package information via the import wizard tool by using K3 Pebblestone's field mapping codes and Excel files for improved efficiency.

About K3

As a Microsoft Cloud for Retail launch partner, K3 champions but one ideal: to foster an ethical and socially responsible world driven by sustainable practices.

We have innovated retail technology for the last 30 years, but today, we simply aim to empower others to make greener choices – and that starts with our solutions.

K3 blends its own IP with third-party products to create platforms that are truly transformative and enable forward-thinking brands to unlock enduring value and trust from intelligent, agile and sustainable business practices.

With purpose and pace, K3 will permanently transform fashion, apparel and select retail markets into a model of good business, transparency and ethical sustainability.
