

Product Data Management

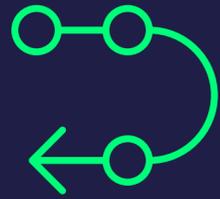

K3 Pebblestone's PDM empowers businesses to have a quicker time to market and decrease product development costs by providing greater design efficiency and reducing administrative overhead costs. Businesses are also enabled to make proactive decisions to avoid costly backlogs and missed deadlines.

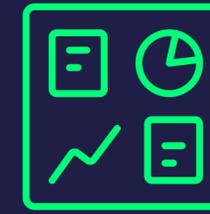

Track item phases for collections

K3 Pebblestone's item phases ensure you can follow a product's lifecycle from design all the way through to the closing sales.

Critical path management and overview

Effectively manage your project activities with critical path management and overview capabilities to ensure you stay right on track throughout.

Product data management

Drive cost and productivity gains with a "single version of the truth" for all product-related data – available from anywhere, at any time.

Measurement handling

For quality and communication purposes, it is crucial businesses can store measurements like chest, waist, hip and centre back efficiently.

Measurement handling for different versions

Different versions of the measurements enable you to monitor the whole process right throughout, from design to the final production samples.

Remeasurement in quality control

The remeasurement functionality allows you to check the measurements of the whole size range when the collection arrives in the warehouse.

About K3

As a Microsoft Cloud for Retail launch partner, K3 champions but one ideal: to foster an ethical and socially responsible world driven by sustainable practices.

We have innovated retail technology for the last 30 years, but today, we simply aim to empower others to make greener choices – and that starts with our solutions.

K3 blends its own IP with third-party products to create platforms that are truly transformative and enable forward-thinking brands to unlock enduring value and trust from intelligent, agile and sustainable business practices.

With purpose and pace, K3 will permanently transform fashion, apparel and select retail markets into a model of good business, transparency and ethical sustainability.
